INSIGHTS INTO @dog_rates TWITTER PAGE

Introduction:
The report presents an analysis of dog breed ratings, with a focus on identifying the top and lowest rated breeds, as well as the years with the highest average ratings. Data from multiple sources were collected and analyzed to produce this report.

Methodology:
The data used in this report was collected from various sources and analyzed to identify trends and patterns. The data was then separated into three main categories: top rated dog breeds, lowest rated dog breeds, and years with the highest average ratings.

Results:

The top rated dog breeds, in descending order, were Clumber, Pomeranian, Saluki, Briard, Tibetan Mastiff, Border Terrier, Kuvasz, Giant Schnauzer, Silky Terrier and Standard Schnauzer, all with a rating of 12.00 or higher.
The lowest rated dog breeds, in ascending order, were Japanese Spaniel, Soft-Coated Wheaten Terrier, Ibizan Hound, Norwich Terrier, Scotch Terrier, Walker Hound, Welsh Springer Spaniel, Tibetan Terrier, Miniature Schnauzer and Dalmatian, all with a rating of 9.00 or lower.
Years with the highest average rating were 2015 and 2016, with 9.92 and 11.04 respectively, and 2017 had the highest rating at 12.48.

Conclusion:
The report provides an overview of the top and lowest rated dog breeds, as well as the years with the highest average ratings. The data suggests that there are certain breeds that are consistently rated higher or lower than others, and that there are certain years in which dog breed ratings are generally higher. This report can be used as a reference for dog breeders, dog enthusiasts and researchers to understand how certain dog breeds are perceived by the public.
